Changes to the BC Building Code: What's in store for you in 2012?

The next edition of the BC Building Code will be coming out next year. What are some of the proposed changes that will affect you and your organization?

Trudy Rotgans, MAIBC, MCIP is the Executive Director of the Building and Safety Standards Branch in the Office of Housing and Construction Standards at the **Province of British Columbia**.

Trudy will detail the technical code changes and review the Province's preliminary concepts for energy efficiency for large residential projects.

This is a great opportunity to gain clarity and get all your questions answered from the person responsible for the development of the 2012 edition of the Code.
