Hydronic Systems Design Software

TECA's *Hydronic Systems Design Software* is to be used in conjunction with the *Hydronic Systems Design Manual* and training course by Registered TECA Designers. Worksheets are linked so that calculations will be transferred from one worksheet to another as you move through the design process for residences with as many as 30 rooms. The following worksheets are included in the program:

- Heat Loss Worksheet**
- Hydronic Radiant Floor Panel Worksheet**
- Layout Summary—Inspection Sheet**
- Pump Sizing Worksheet**
- Expansion Tank Sizing by Heat Capacity**
- Estimate Worksheet—Sq. Ft. Heat Loss Method**
- Estimate Worksheet—Hydronic System Design**
- Design Temperature Chart (selected BC locations)**

Please Note: If you are a large company, please be advised that you must order disks for **each** of your designers. It is copyright infringement to copy TECA software. Please also provide a contact name. If questions arise concerning the software the contact person can inquire.

Computer Requirements: TECA's Quality First programs are provided on **CD** to run using **MSEXCEL™5**. You must have Excel™ version 5.0 or newer spreadsheet software installed on your PC in order to use this program.

Please customize my Hydronic Software with the following information and ship my order to:
