NOTICE OF SUSPENSION / QUALITY FIRST VENTILATION / October 2019

As many of you may know, for over 30 years, TECA has provided province wide training on the ventilation requirements of the BC Building Code. Since its inception, TECA has issued Certification Stamps and wallet cards to those individuals who both attend the Ventilation Guidelines course and pass its exam. All of TECA's Ventilation Guidelines Certificates expire at the end of each code cycle unless we deem the code changes to be too small to require re-certification. Our current Certification is dated 2012. Expected expiry: Dec. 2021. See sample below.

design (A) showing long name

design (A) showing short name

Some of you have brought to our attention, that there have been a few certified individuals who have negligently, or in some cases fraudulently, submitted TECA's Certification Stamps. After these individuals are identified, and subsequently warned formally in writing, if that individual does not respond or take corrective action, TECA will suspend that certification.

This letter is to notify you that the individual below is currently suspended.

Gurdeep S. Otal

Omni Gas Ltd.

(778) 882-3071

omnigasltd@gmail.com

Ventilation Certification No.: 2012V-347

We strongly urge you to reject any TECA Ventilation Guidelines Checklists submitted by this individual. We have posted this information on TECA's website, see link below.
